about Ed

BEGLEY'S™
Ed Begley Jr.

Actor, author, and pioneering environmentalist Ed Begley, Jr. has been a longstanding advocate for environmental issues. Ed has led the Green Movement for many years, both as a personal example of sustainable lifestyle practices, and a vocal spokesperson towards a more Earth-responsible society. He believes that even the simplest changes in personal habits, carried out by concerned humans, can create a lasting effect on the health of our planet and of all living things.

Ed has served as chairman of the Environmental Media Association, and the Santa Monica Mountains Conservancy. He still serves on those boards, as well as the Thoreau Institute, The Coalition For Clean Air, and others.

He currently lives in Los Angeles in a home powered by solar energy, and drives an electric car when not riding his bicycle.

why plant-based formulas?

"If it dries in your home, it goes into the air. You and your family breathe this stuff. Your kids, your pets, even your houseplants..."

"I don't think people should have to make a choice between a clean home and a safer home. I'm confident these products are the hardest working, safest cleaners on the market today." - Ed Begley, Jr.

OLD FASHIONED CLEANERS

Outdated cleaners created with undisclosed petro/chemical based ingredients.

UNACCEPTABLE

OUR "GREEN" COMPETITORS

Mostly plant-based with some petro/chemical components. Partial ingredient disclosure.

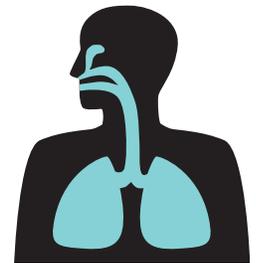

A GOOD START

BEGLEY'S NATURAL CLEANERS

Super effective cleaners with plant-based ingredients. Full ingredient disclosure.

WISEST CHOICE

All Begley's Products are Developed with **3** Basic Principles:

performance

All Begley's products must work as well or better than non-green alternatives. Must outperform our "green" competitors. Use great smelling fragrances.

environment

Upmost concern for the environment, and the health of people, pets, & plants. Premium quality, recyclable packaging.

design

From the inside out, use only the best ingredients and develop packaging that reflects premium quality.

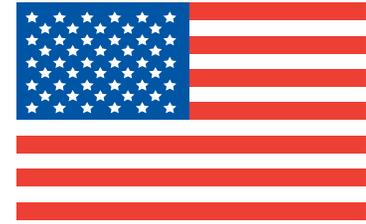

Our Vision:
To Create an
Entirely New Kind
of Household
Cleaning Products.
