

## 2020 Health System/Institutional Pharmacy Session

### **Education & EPPS Programs**

ECRM's educational sessions provide EPPS attendees with the opportunity to learn from thought leaders and category experts on a variety of topics aimed at their professional development. These sessions include presentations, moderated panel discussions, special events, workshops, and roundtable discussions focused on category insights and trends, as well as hands-on workshops to help buyers and sellers enhance the effectiveness of their meetings during an EPPS.

## Simple Solutions to Complicated Challenges of the Biosimilar Uptake in the U.S. Market

**60 minutes**

### **Learning Objectives**

- Describe the difference between biologic medications and small molecule chemical medications
- Explain the definitions of reference product, biosimilar product and an interchangeable product; and understand the differences between them
- Outline the abbreviated approval pathway for biosimilar and interchangeable products
- List at least three major challenge biosimilars face in the U.S. Market
- List at least three strategies a healthcare system can use to work around the challenges

### **Disclosure**

It is the policy of ProCE, Inc. to ensure balance, independence, objectivity and scientific rigor in all of its continuing education activities. Faculty must disclose to participants any significant financial interest or affiliation with companies that manufacture or market products discussed in this activity. Joe Maki has no relevant commercial and/or financial relationships to disclose. Please note: The information and views presented in this activity are those of the faculty through clinical practice and knowledge of the professional literature. Portions of this activity may include the use of drugs and/or devices for unlabeled indications, which should be considered experimental. Participants are advised to consult manufacturer product information and the professional literature and use professional judgment in applying the presented information in patient-care activities.

### **Accreditation**

ProCE, Inc. is accredited by the Accreditation Council for Pharmacy Education as a provider of continuing pharmacy education. ACPE Universal Activity Number 0221-0000-19-188-L04-P/T has been assigned to this live knowledge-based activity (initial release date June 25, 2019). This activity is approved for 1.0 contact hour (0.1 CEU) in states that recognize ACPE providers. The activity is provided at no cost to participants. Participants must complete the online post-test and activity evaluation to receive pharmacy CE credit. No partial credit will be given. Statements of completion will be issued online at [www.ProCE.com](http://www.ProCE.com) and proof of completion will be posted in NABP CPE Monitor profiles.
